2021-2022 School Accountability Report Card

(Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

CAPE was designed to replicate the successful education program of a pre-existing alternative public school, the Los Senderos Open School (“Los Senderos”), slated for closure at the end of the 2006-2007 school year by the Pleasant Valley Elementary School District after 31 years of successful education using the open philosophy of teaching . In response to the closure of Los Senderos, a group of parents began to research the feasibility of creating a charter school in order to ensure that the parents of Camarillo and their students had the choice of an open school philosophy. They were joined by a group of teachers with an exceptional knowledge of the open school philosophy and its application in creating students who are lifelong learners. The result was our initial charter petition meant to replicate the successful open philosophy education program at Los Senderos, in a public charter school serving grades K-12 granted and overseen by the Oxnard Union High School District (the “District”). The District approved the charter on May 22, 2007 to operate for one year. In May 2008 the District approved the charter to operate under a five-year charter term from July 1, 2008 through July 1, 2013. In November of 2012 the District approved the charter to operate under another five-year charter term from July 1, 2013 to July 1, 2018. In November of 2017 the District approved the charter to operate under another five-year charter term from July 1, 2018 to July 1, 2023. Effective July 1, 2021, all charter schools whose term expires on or between January 1, 2022 and June 30, 2025, shall have their term extended by two years pursuant to California Education Code Section 47607.4 This means that the new charter term from CAPE will expire on July 1, 2025.

The mission of Camarillo Academy of Progressive Education is to foster global, independent, creative thinkers who feel confident in themselves, are willing to take risks, and are able to work cooperatively. Together, teachers, students and parents create and sustain an environment in accordance with a progressive philosophy that sparks imagination, ignites a love for learning and encourages each individual to be and do the best that he/she can, enabling pupils to become self-motivated, competent, life-long learners, who are equipped for the challenges of the 21st century. The formation of our school vision was an exciting and powerful process: a dream of parents, teachers and students. This dedicated group sought an education for all children that would be student-centered, meaningful and connected to the real world. Each student, teacher, and parent was empowered to assume personal responsibility for learning and for supporting the learning community. CAPE supports a comprehensive instructional plan by providing safe, nurturing and intellectually engaging surroundings, where students are inspired to intrinsically value learning as they achieve social and academic success. Teachers create a classroom environment which challenges and supports students’ learning. Teachers at CAPE implement a standards-based curriculum while promoting diversity, creativity, cooperation and individual learning styles. Parents and teachers work as partners to guide and encourage

2022-23 School Overview

students to become positive, responsible, contributing citizens who value themselves and others in their choices as they strive to become life-long learners.

CAPE's philosophy is based in part on research that reveals that children learn best when they are intrinsically motivated. Therefore, a child at CAPE is not encouraged to pursue extrinsic rewards such as individual recognition, a teacher's approval, a sticker on a test, or even good grades. Instead children are motivated to learn because their interests have been sparked. Standards-based curricula are brought to life through hands-on projects that make learning relevant. Students are challenged to ask questions, encounter problems, make mistakes and discover solutions through new ways of thinking. Differentiation often occurs naturally because each student takes responsibility for learning at his or her own level. Teachers ask questions to guide children toward more sophisticated thinking until the students suddenly realize the need for some new piece of information or a new way of seeing things in order to overcome problems. In this way, students suddenly want to learn—in fact hunger to learn—in order to solve problems and be successful. Through this kind of process, the lessons the children learn become deeply embedded. And even more important, students acquire problem-solving skills, gain confidence and experience the joy of learning that can motivate them to be lifelong learners. CAPE's philosophy also takes into account the fluid nature of education. The teachers, administrators and parents are lifelong learners themselves, ready to implement and embrace new, evidence-based ideas into the curriculum as new research emerges. Teachers are also constantly reassessing students' strengths, interests and gaps in learning. Therefore, at both the school-wide level and at the level of each individual child, CAPE's philosophy is progressive and flexible to best meet the needs of each student.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

2021-22 data was not included as part of the initial release of data on 1/13/23. The CDE has indicated that the data will be available after the 2/1/23 SARC deadline. The data will be populated when it is published by the CDE.

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

2022-23 Quality, Currency, Availability of Textbooks and Other Instructional Materials

CAPE believes that learning best occurs when instruction is delivered in a manner consistent with a progressive philosophy. The premise of CAPE's progressive education is to create a learning environment where students actively experience their education and are continually challenged in an ever-changing, yet organized setting. There is an active cooperative partnership among parents, students and teachers, where learning is for its own sake, for the joy of it, and for its intrinsic value. Each student is held accountable for his or her own progress while utilizing the support system of teachers and parents.

The CAPE philosophy encourages each child to fully participate in his or her education. Building self-esteem through personal responsibility is a primary focus. If children feel good about themselves, they will be more open to learning. CAPE shall provide safe, nurturing and intellectually engaging surroundings where students are inspired to intrinsically value learning as they achieve social and academic success. The instructional program shall conform to California Common Core State Standards. The teachers and board of CAPE shall continuously assess the implementation of its curriculum. The goal of the school is to ensure that every child is successful. Strategies for accomplishing this goal include staff development and training, faculty meetings, articulation among staff members, observation of classroom instruction, parent surveys and a continuous review of assessment results. Teachers will create classroom environments that challenge and support students' learning of standards-based curriculum while promoting diversity, creativity, cooperation and individual learning styles. Parents and teachers work as partners to guide and encourage students to become positive, responsible, contributing citizens who value themselves and others in their choices as they strive to become life-long learners.

School Facility Conditions and Planned Improvements

CAPE provides a safe, clean environment for students, staff, faculty and volunteers. Classrooms, bathrooms, and general areas are in good repair and receive basic cleaning on a daily basis. Deep cleaning is done at least three times per year. Safety concerns are addressed immediately and a top priority at CAPE. Our maintenance staff is very proactive and conducts inspections on a continual basis. Emergency repairs are given the highest priority. CAPE works with Pleasant Valley School District, the district who owns the property CAPE leases, for deferred maintenance issues. Deferred maintenance typically includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting and floor systems. Pleasant Valley's completed deferred maintenance plan is available at their district office.

Library – Most Recent Year

CAPE does not have a school-wide library. Each classroom is outfitted with their own classroom library and lending system. CAPE has the Accelerated Reader (AR) program for students in grades K-8. Each teacher is given a budget of \$300 per school year to purchase new books for their classroom libraries.

Computers – Most Recent Year

CAPE has 1:1 IPADS for students in grades K-8. The middle school has a mobile computer netbook lab with 33 netbooks. Every classroom has a teacher computer, a teacher laptop, a teacher IPAD, 1 IPAD for each student, a projector, a Hoovercam (document camera) and a SMART board.

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Overview

CAPE Charter School began admitting high school students beginning in the fall of 2017. Students will be selected using the CAPE lottery process. For the school year 2017-2018, up to ten (10) students will be in the high school program as 9th, 10th, 11th or 12th graders. Each year thereafter, students will be added until there is a maximum of 20 students total in grades 9-12. As with the elementary students, CAPE will target high school students and families who are looking for a progressive philosophy of learning. As noted before, progressive philosophy of CAPE allows each child to participate in his or her own education. Personal responsibility will be especially emphasized for high school students. This will help students build self-esteem and self-motivation, which is necessary to become a functioning citizen in the future.

Course Transferability

CAPE will inform parents of course transferability through a parent/student handbook that includes specific information on course transferability and outlines school policies and expectations for all students and parents. Courses that meet University of California and California State University entrance requirements will be listed in the parent/student handbook as soon as they are available. All entering high school students and parents will be required to complete an orientation that will include a review of the handbook. In addition to the "A to G" admissions criteria and the approved course list for the University of California and the California State University, a statement regarding the transferability of courses to other district and out of district high schools will be included.

In addition to course descriptions, the handbook will also include information on the CHSPE, Career Technical Education, Community College Concurrent Enrollment, ROP courses and Work Experience. In addition, a CAPE counselor will be available to address credits, course selections and college planning. CAPE will offer PSAT testing. Also, the OUHSD offers a College Fair, Career Fair, and SAT and ACT workshops for students in the district even if they do not attend a district sponsored school. CAPE also plans to have College and Career Information Nights, where the counselor and college and career representatives can present the many options available to students.

Both the "A to G" list and transferability of classes will be updated on a yearly basis. A diploma certified by Camarillo Academy of Progressive Education (CAPE) will be issued to all students who meet the CAPE graduation requirements.

On-Line Course Work

Like many other small schools, CAPE has chosen to utilize courses offered through a vendor, Pearsons Connexus (Connections Learning) for their high school students. Pearsons Connexus will provide CAPE with the curriculum, platform and the teachers. All Pearson courses are A-G acceptable and follow the Common Core standards. Pearson Connexus is a division of Connection Education which is accredited by AdvancED. Pearson teachers will teach the course and recommend a grade, but CAPE will grant the credit.

While CAPE Charter School believes in encouraging all students to keep their educational options available by pursuing a course of study that will enable them a good chance of being admitted into college, CAPE also recognizes and honors students who have goals other than attending college. Therefore, all CAPE High School students will be required to complete CAPE's Recommended Course of Study for College Bound Students, which is aligned with college admission requirements through the National Association for College Admission Counseling as well as the UC/CSU recommended course of study.

CAPE's learning program provides students and their families the flexibility to work with a rigorous and challenging curriculum that reflects the student's ability and goals. CAPE will provide core courses for college-prep credit, and College Board approved Advanced Placement credit. If a student has a need to move at a slower pace, Foundation courses will also be offered for general studies credit.

2021-22 Career Technical Education Programs

Transcripts

All work attempted and completed by a CAPE High School Student is recorded on a high-school transcript. The Students Records office maintains a computerized transcript system. The school administrators will utilize the transcript system to determine a student's grade point average. Any school making an official written request for a student's cumulative file will be given a copy of a current transcript. The transcript will show work completed through as well as credits earned from CAPE Charter School.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Grade 5	100	100	100	100	100
Grade 7	100	100	100	100	100

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

Feedback from all educational partners is an important part of the CAPE Community. CAPE has a Governing Board that consists of Two Parent Representatives, Two Teachers who represent all employees, and One Community Member that represent the interest of the surrounding area. The main parent organization of CAPE is a PTSO. Many schools have a PTA, but it was important to the parents of CAPE to have an organization that included all educational partners. When choosing the PTSO, they liked that all community members are automatically enrolled (no membership dues or applications) and students are also included. Once a month the CAPE administration meets informally with parents via "chatter time" to brainstorm, receive feedback and answer questions. Teachers communicate to students daily through morning meeting or advisory time and report to administration feedback and ideas from our student educational partners. Administration meets monthly with student representatives from all classes in grades 3-8 to hear their ideas, suggestions and feedback.

C. Engagement

State Priority: Pupil Engagement

The SARC provides the following information relevant to the State priority: Pupil Engagement (Priority 5):

- High school dropout rates;
- High school graduation rates; and
- Chronic Absenteeism

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Suspensions	0.00	3.88	2.45
Expulsions	0.00	0.32	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

2022-23 School Safety Plan

CAPE has developed a Reopening and COVID Mitigation plan, COVID Prevention Plan and COVID School Guidance checklist. All these plans are available on our school website.

CAPE takes the safety of students and staff very seriously. CAPE's disaster preparedness plan includes steps for insuring student and staff safety during a disaster. Fire drills, earthquake drills, and lock down drills are conducted on a regular basis throughout the school year. Storage bins on campus contain food, water, medical and other supplies for use during a disaster.

CAPE is a closed campus. During school hours, parents, visitors and students must enter and exit through the office. All visitors are required to sign-in at the office using our Keep-n-Track computer system. Visitors must wear identification, given to them by the office staff, while on campus. Parents who volunteer on a regular basis are issued a picture ID to be worn while on campus. The school is also wired with silent alarms throughout the campus that are directly linked to the Camarillo police station.

A Comprehensive School Safety Plan was developed by the school staff to provide students and staff a means to insure a safe and orderly learning environment. Components of the Comprehensive School Safety Plan include: mandatory child abuse reporting procedures, teacher notification of dangerous pupil procedures, disaster response procedures, procedures for safe arrival and departures from school, sexual harassment policy, suspension and expulsion policies, dress code, and discipline policies. The school administration team, teachers and staff evaluate the plan annually and update the plan as needed. The policy is available in the CAPE front office.
